### Availability:

Student CAT time.

Other times by appointment.

### Math Lab:

Another resource available for math help.

No appointment necessary.

Open every period, every day.

Room N209.

<p>Course Objectives/Description</p>	<p>Students will identify and apply characteristics of numeric and algebraic computations, proportional reasoning and solving algebraic equations, linear functions and inequalities (tables, graphs, equations, inequalities, and applications).</p> <p>Students will also learn systems of equations, geometry, data probability, exponents (negative exponents and graphing), polynomials, quadratics, and radicals.</p> <p><u>*A graphing calculator is required for this course.*</u></p> <p>(A TI-83 is recommended as it best aligns to the curriculum and will be used in future mathematics courses.)</p>
<p>State or National Standards</p>	<p><u>Colorado State Standards</u></p>
